MEMORANDUM FOR: Chief, Information and Management Support
Staff, OL

STAT

FROM:

Chief, Real Estate & Construction Division, OL

SUBJECT: Additional FY 1985 Objectives for the Office of
Logistics

Regarding the Director of Logistics' oral request at the
5 October 1984 staff meeting, the attached four additional
Office Level Objectives are submitted for consideration.

STAT

Attachment

OL 13611-84

OFFICE LEVEL OBJECTIVE - FY-1985

D. OBJECTIVE: Direct Office of Logistics Recruiting and Hiring.
PURPOSE: To provide OL with top quality personnel interested in logistics as a career
STATEMENT: For several years, the recruiting and hiring of skilled personnel in the various logistics disciplines has been less than satisfactory. Logistical requirements have appeared to be less than the top priority of recruiters and have suffered accordingly. With the recent economic recession, government employment could have been expected to rise. Such a rise, if it occurred, was not noticeably visible in the logistical skills. Now that economic indicators are forecasting a more prosperous private sector, governmental agencies will have to be even more aggressive in their recruiting.

Since logistical recruitment suffered in the recent period of high unemployment, there is no reason to believe that things will get better now. Quite the contrary can be expected unless the Office of Logistics can gain more control of its recruiting and staffing. Therefore, it is essential for the Office of Logistics to undertake a program of personnel resource acquisition which addresses direct recruitment, direct hiring, educational aid such as scholarships and subsidies, and a development program tailored to periods both before and after entry on duty.

OFFICE LEVEL OBJECTIVE - FY-1985

F
OBJECTIVE: Improve commercial and Agency transportation systems for getting employees to and from work
PURPOSE: Offer an alternative to the POV by providing a dependable and economical transportation system for employees
STATEMENT: The premise is that if employees are provided with alternative transportation to driving their POV's which are dependable and economical, they would probably choose the alternative methods.

This study should look at improved transportation from fringe parking areas where there are heavy concentration of Agency employees. The commercial systems should be meshed with Agency transportation to provide for a total system for moving our personnel in and out of our locations.

OFFICE LEVEL OBJECTIVE - FY-1985

6 OBJECTIVE: Study Consolidated Logistics Center

PURPOSE: { Bring together all of the Office of Logistics into
a Consolidated Facility

STATEMENT: The Agency has become a highly technical, highly sophisticated organization. In order that our Logistics support capabilities may be greatly enhanced, it is recommended that the Office of Logistics consolidate its functions into a modern facility.

This study envisions not only a modern facility to include offices, warehouses, etc. but also the incorporation of the latest in state-of-the art equipment, and methodology. The facility should be strategically located near major highways, airports, and transportation facilities.

The study should include an action plan and a time table for getting there
